1/ Chief Operations Officer

Telemis is a fast growing healthcare IT company specialized in PACS/MACS (Picture/Multimedia Archiving & Communication System), Digital Pathology and Healthcare Business Intelligence solutions. Telemis is looking for a COO (Chief Operations officer)

Your role as COO

As COO, your main responsibilities are the coordination of the different departments in order to release a high quality software product, as well as to make sure that each of our clients is being offered the latest version of our software in a timely manner while ensuring an unprecedented quality of service for our clients.

Your tasks will include:

- Overseeing of the R&D, Testing and Customer Support departments
- maintaining a synergistic relationship between the departments in order to achieve the company's objectives.
- Taking decisions regarding the evolution of our R&D department in order to streamline the processes and make them more efficient.
- Coaching, leading and managing the different departments in order to reach the set objectives
- Setting up budget estimates and release management
- Ensuring the planning's follow-up for the different departments
- Various reportings to the Management board of Telemis Group

Your profile

- o You have a degree in a related technical field and/or management
- o You have a management experience in an R&D department, ideally in a software development company
- o You speak French and English fluently. Any other language is considered an asset

Our offer

You will join a dynamic and motivated team, which is part of a human-sized multinational company. You will be based in our HQ in Louvain-la-Neuve (Belgium) but you may sometimes have to travel to other Telemis subsidiaries. Next to a competitive salary, Telemis offers real career opportunities
